Trinity  
Corporate Supporters

## Introduction

Trinity enjoys collaborative relationships with local businesses and our corporate supporters' package enables us to form a partnership with your business to explore potential for brand awareness and promotional opportunities with the theatre.

We promote your brand via our website, brochures and the promotional screens both in our busy bar and cafe and by our box office.

We can offer additional services such as advertising in our popular cinema and client entertaining before a show. Research has shown clients especially appreciate an evening out as a thank you. This pack outlines the corporate supporters' package and the benefits, along with add-on options that may appeal.
